## Fourth War Bond Rally to be Held Tonight at School

Seaman, Navy Lieutenant, County Chairman to Be Present

A rally to be held at Antioch Grade school this evening at 8 o'clock will be one of the initial highlights in this community's Fourth War Loan Drive, which got under way Tuesday.

In addition to Lt. Osborn of the navy, who is stationed at Great Lakes, and James F. Stiles, Jr., chairman of the Lake county bond drive and vice-president of the Abbott company, speakers will include Seaman Hamilton of Great Lakes, who is at present recuperating from active combat duty and will relate some of his experiences.

The rally will be open to the general public and is expected to be well attended.

On Monday Otto S. Klass, Antioch township chairman for the drive, and George Wagner met with County Chairman Stiles to arrange plans for the drive here.

### Featured at High School

Antioch Township High school's part in the drive got under way Monday, when a picture of a jeep to be "purchased" through the buying of war savings stamps was posted at the school.

As stamps are bought, each part of the jeep which could be "bought" with the sum of the purchases is to be covered with a sticker. When purchase of the jeep is to be completed, the U. S. Treasury department will be notified that the high school has bought its jeep.

The Oath of Allegiance to the Flag and the singing of "The Star Spangled Banner" opened the program, at which Sammy Klass, president of the student council, presided. The purpose of the jeep was explained by Don Bratrude. Brief talks on the Fourth War Loan drive were made by T. R. Birkhead, principal, and by Otto S. Klass and George Wagner of the bond drive committee.

Although the bond drive will feature a house-to-house canvass, actual purchases of bonds will be made through the two local banks and the post office. Persons wishing to purchase bonds need not wait until they are called upon, since they will be credited with all purchases made during the period of the drive.

## Mosquito Tops Burlington Liars' Club 1943 Entries

President O. C. Hulett of the Burlington Liars club in his New Year's Eve announcement listed the following champions for 1943, chosen from among (he says) 6,000 entries:

First—Sgt. Maron S. Fonesbeck, Toole, Utah.

"The mosquitoes of Maryland were the P-38 type, and when they landed they always filled both fuselages. The first day I was there they completely drained me of blood. The second day I was giving them I. O. U's."

"Months later, when I was stationed in Alabama, the Maryland mosquitoes sent me a card on Father's day because they had so much of my blood in them."

"We tried in many ways to dispose of these pests, including poison gas, but it was all to no avail. We did, however, kill a few by shooting .30 caliber rifle bullets at them. They were mean, those mosquitoes, and it made them mad to have to get out of the way of those bullets. So they'd snap at them as they went by, and before they could let go of that lead, it would jar off their heads."

Honorable mention—Mrs. George Heise, Sedro Woolley.

"The authorities are fussy about fishing along the creeks of the watershed of the city water supply where I live. Everything must be sanitary, and you can't use bait for fishing."

"I was fishing with a dry fly one day, wading in a creek, when I stopped to take a 'chaw' of tobacco. As I cut it a few slivers fell into the creek."

"Three fish took the slivers and started to chew them. After that it was easy to catch those fish."

"Those fish knew the sanitation rules of the watershed. They came up on the bank to spit."

Special mention—B. H. Clark, New Orleans.

"I spent one hour and 50 minutes the other night trying to convince my mother-in-law that I was drunk."

Mrs. W. C. Petty will give a book review at a literary tea to be held at the home of Mrs. E. C. Rich, Grayslake, Jan. 21.

## Electric Appliances "Swap" Campaign Bringing Results

The "swap" campaign in which War Stamps are given in trade for idle or broken electric appliances is meeting a favorable response in Antioch, according to Carey Electric and Plumbing shop and the Wilton Electric shop, who sponsor the plan here. The campaign is part of a movement resulting from the recent nation-wide appeal of the War Labor Board that homes be searched thoroughly for work-saving devices now out of use, to be repaired and made available to war workers and others now doing without them because of wartime manufacturing restrictions.

Since the opening of the drive in Antioch many toasters, lamps and flat irons, as well as larger appliances which had been gathering dust in attics, cupboards and basements have been unearthed and delivered to the stores for resale.

"Especially active is a large number of boys and girls who have gained their parents' permission to search out idle appliances as a means of filling their War Stamp Books," it was said. "Grownups have expressed pleasure at participating in the sharing aspect of the swap campaign, hoping a neighbor is helped by their old appliance. The campaign will continue for several weeks."

## News of the Boys in Service

William F. Mongan, son of Mrs. Earl Gibbs, Antioch, is among the 340 boys from Illinois who have been in training at the pre-flight school of the San Antonio aviation cadet center in Texas.

Some interesting clippings from the United States Army Dispatch have been loaned to the News by Mrs. Clark Kohler (the former Miss Mary Secor) of Lake Villa, whose husband is serving overseas with a quartermaster's truck regiment.

More than 10,000 flyers for the Army Air forces were furnished by the Chicago area during 1943, according to Capt. F. A. Wilgus, president of the Chicago Army Aviation Cadet board, 166 West Van Buren street. Many from Antioch and vicinity are included in this total.

Aviation cadet training for air crew-pilot, bombardier or navigator is still open to men between 17 to 26, inclusive, Capt. Wilgus states. With the application three letters of recommendation from reputable non-related persons must be submitted, together with birth certificate or other properly authenticated proof of birthdate or citizenship.

A notarized parents' consent must be presented if the applicant is 17 years old. If he passes the qualifying tests he will be enrolled in the Air corps enlisted reserve and will not be called into training until after reaching 18 years.

If the applicant is over 18, he must submit a statement from his local selective service board showing that he has not yet received his induction notice and that he is not employed in a position essential to the war effort. Men 18 to 26 who qualify go into the army air forces through their local draft boards.

Chicago—If you DON'T want your V-mail letter to go to the soldier you're writing to overseas, skip this dry little essay.

Reminding the folks on the home front that a lot of V-mail winds up undelivered in the dead letter office, Major General H. S. Aurnand, Commanding General, Sixth Service Command, Army Service Forces, today asked the public's co-operation in the tremendous job of getting your V-mail letter to your soldier overseas.

Major Kenneth H. Donnelly, postal officer of the Sixth Service Command, at General Aurnand's suggestion, offers the following hints to get your V-mail message to all the fronts where American soldiers consider mail call the most important sound a bugle can blow.

The soldier's address, as well as the writer's return address, on the message side of the V-mail letter, should be printed completely, correctly, and plainly. Besides the plainly printed name of the soldier, the address must contain his rank or rating, the unit to which he is assigned, the APO number and should be sent in care of the proper postmaster.

Don't try to enclose anything inside a V-mail letter and don't paste anything on the message side of the sheet.

The writing must be fairly large, clear and well spaced and ink should be used when a typewriter isn't available. (Continued on page 5)

## Voters Who Are Unregistered May Sign Up Jan. 29

Registration to Take Place at Antioch Village Hall 2-9 P. M.

All qualified voters of Antioch who have not as yet registered under the Permanent Registration Act may do so at the Antioch village hall Saturday, Jan. 29, from 2 p. m. to 9 p. m., it was announced this week by William A. Rosing, township supervisor.

While a large proportion of the Illinois voters were registered under the Permanent Registration Act in the fall of 1942, when it was inaugurated, it is believed that there are many others as yet unregistered.

These include persons who have reached the age of 21 since that time, or will have reached it at the time of the primary election this coming April, and persons from other states who have been drawn to Illinois as war workers, agricultural workers or for other reasons.

### Special Provisions Made

Provision is made in the statutes whereby an otherwise qualified voter who for some reason has been unable to register may vote in one (and only one) election during the period between the time when the law was enacted and the first Tuesday after the first Monday in November, 1946. However, it is recommended that to save time and confusion all voters who have not as yet registered do so on Jan. 29.

## High School to Conduct Salvage Drive Saturday

Antioch Township High school students have announced this coming Saturday, Jan. 22, as "Pick-up Day" for their part in the paper salvage drive, C. L. Kutil, local chairman, announced.

Grade school students conducted a curb pick-up Tuesday, with the assistance of the village street department truck, which will also aid in the high school campaign.

Excellent co-operation on the part of townspeople has been aiding the campaign, Kutil announces. A large stock of paper has been picked up by the grade students and stored at their depot at the Maplethorpe filling station.

A considerable store is also accumulating at the high school salvage station.

Persons who have a considerable quantity of paper to be picked up may make arrangements by telephoning Kutil at Antioch 214 or 296.

Smaller quantities may be tied in bundles or placed in boxes for pick-up within the village limits Saturday. Persons living outside the village may bring the paper to the salvage depot at the school.

## Seven Gerber Brothers are In U. S. Service

Family of Former Antioch Man Is Well Represented in Armed Forces

T/S William ("Bill") Gerber, formerly of Antioch and now of Camp Breckenridge, Ky., is one of seven sons of Mr. and Mrs. Simon Gerber, Sun Prairie, Wis., serving in the armed forces.

The others include Cpl. Fritz, Camp Shelby, Miss.; Sgt. Rudy, North Africa; Cpl. Max, San Angelo, Texas; Cpl. Walter, Australia; S/Sgt. Ernest, Australia; and Clyde, S. I. C., who trained at Farragut, Idaho.

Alwards Send Five

Another "record" service family is that of the William Alwards, Lake Villa, who at one time had five members of their family in the service. One, former Cpl. Norman Alwardt, who was at one time stationed at Camp Livingston, La., later received an honorable discharge and is now at Douglas Aircraft, Chicago.

The others are Pvt. Howard Alwardt, New York A. P. O.; Sgt. Wilbur Mortenson (adopted); Pvt. Wilbur Alwardt, and Pvt. Cedric Alwardt.

Them Bristol firemen oughtta qualify for that thar anyuall Burlington contest, accordin' 't this yarn wich we snitched from th' Kenosha papah a-while back—

The Bristol fire department was called out recently when a grass fire at the Dr. Hill farm threatened to get beyond control. When the department got to the fire and tried to turn on the hose, the line repeatedly became clogged and the stream of water was reduced to a dribble.

Later after the fire department returned to the station, the men emptied the booster tank and found a live fish had caused the water stoppage. The fish is still alive and in a pail at the fire station.

The only explanation which can be offered, is that last spring when a Bristol farm fire occurred, water from a stock tank was put into the fire department's booster tank. If that is the explanation, and it is the only logical one offered, then the fish has lived in the tank all summer.

We've been getting just a little tired of all this jawin' back'n'forth about whether or not MacArthur would or would not be willing to be a candidate for Pres., so we got kinda interested in this hear now account of an interview in Seattle, Wash., in which . . .

Col. Charles H. Morhouse, personal physician to General Douglas MacArthur, said MacArthur "would rather step foot in Manila than in the White House."

"I can tell you that General MacArthur's greatest ambition is to go back to the Philippines in a victory parade; he has no political ambitions," Col. Morhouse said.

We bin thinkin' the same all along. You see, MacArthur, unlike a lot of the rest of us, including some folks in Wash., D. C., was right there in the Philippines. Maybe that's back of all the yelling he's been doing for more planes, and so on. He made a date with the boys there on Bataan to come back, and he's got that little promise to keep to them. From where we sit, it looks like he's going to, too.

## "March of Dimes" Campaign Is In Progress Here

Postmaster Roy I. Kufalk Heads Committee for the Drive

Antioch has had real reason during the past two or three years to realize the importance of the "March of Dimes" program for the relief of infantile paralysis victims, Postmaster Roy I. Kufalk, local chairman for the nation-wide campaign now in progress, points out.

"One half of all the money contributed here remains in the county for direct use in its communities," Kufalk reminds contributors. "Antioch also receives credit for dimes sent in direct to the President, and one-half of that money is returned to Lake county for use right in the communities."

The balance of the money contributed is used in such work as maintaining and conducting centers where infantile paralysis sufferers may receive treatment, such as the Foundation at Warm Springs, Ga.

### Theaters Aid Effort

The Lakes theater has volunteered the showing of a special screen "trailer" to aid the program, and will help in making collections.

While Manager Fred B. Swanson of the Antioch theater could not be contacted before this week's issue of the Antioch News went to press, it is believed that he also is making special plans to aid in the campaign.

### Have Local Cases

This year occasion arose to aid one local case, by paying a hospital bill, in full; last year, a case was aided in similar fashion, and benefits were also received by local sufferers the preceding year.

Boxes have been placed about the village for the receipt of collections, and donations may also be made direct to Postmaster Kufalk.

### Worst in 12 Years

The infantile paralysis outbreak in 1943 was the worst in 12 years, with almost 12,000 persons, including men, women and children, stricken.

A number of cases were reported in Lake and McHenry counties, as well as in Cook county.

The total cost of the 1943 epidemic cannot be estimated, as many of those stricken may still be patients in years to come.

Contributions in years past have lessened the toll by providing prompt medical attention which has spared many from severe crippling effects and saved many dollars that would otherwise be needed to counteract the effects of neglect.

## Deadline for Hunters' Reports Now Feb. 10

Illinois hunting licenses carry a stub on which sportsmen are required to make a report of game killed. Although the licenses state that these reports must be mailed in by January 15, the actual deadline is February 10, the General Assembly having extended the time after the licenses were printed. The State Department of Conservation, reminding hunters of the extension of time, says in case the stub is lost from a license the required report may be made on a postcard.

The open season on rabbits runs until January 31 in all sections of Illinois, giving hunters the longest shooting season on this game they have had for many years.

## Control of Livestock Diseases Studied by Illinois Veterinarians

The control and elimination of livestock disease, a matter of vital concern to farmers under present wartime conditions, were considered by prominent Illinois veterinarians at a meeting in the Elks club, Springfield, beginning at 9:45 a. m. Wednesday, Jan. 19.

Those attending from this region included Dr. G. W. Jensen of Antioch. Bovine tuberculosis, Bang's disease and mastitis were included in the list of subjects discussed.

## Lions to Meet at Soper's Spa Monday

William M. Marks is chairman of the program for a meeting of the Antioch Lions club to be held at Soper's Spa Monday evening, Jan. 24. The speaker has not as yet been announced.

Miss Mary Stanley has been a patient at St. Therese hospital, Waukegan.

## Grayslake Lions Will Sponsor Carnival Jan. 22-23

Antioch Lions in particular and residents of this community in general have been invited to the carnival which is to be sponsored by the Grayslake Lions club on the evenings of Saturday, Jan. 22, and Sunday, Jan. 23, at the Grayslake school.

The committee in charge has arranged a program which is expected to be to the liking of everyone. It will include vaudeville, games of various types, and other entertainment. There will be no admission charge, it is announced.

## Fortin to Open Tire Repair Shop Monday

The opening of a tire repair shop at the rear of his residence, 998 Main street, has been announced by "Phil" Fortin, proprietor of the Pantry. Roy Cole will be in charge of the shop, which will be open for business Monday, Fortin states.

### A Step Toward Progress

The extent to which the problems of debt and taxation can affect progress in the United States, was lately summed up by a noted financial writer in language any layman should be able to understand. He declared that: "Apart from the danger of inflation getting out of control, one of the worst features of a mounting debt burden is the scramble of different groups of taxpayers to shift the taxes to other shoulders. In this struggle for advantage, the contest is almost inevitably resolved in favor of those groups having the most political power. What emerges is a tax system based more upon political expediency than upon sound economic considerations."

Public debt and the burden of lopsided taxation on the most productive elements in the country have grown so great that some equalizing adjustment must be made after the war is over or dreams of full employment and general advancement will not materialize. There is no use adopting a hardboiled policy in the belief that government will take care of us if private industry fails. If private enterprise fails, so will the government—the government lives by the productive effort of private enterprise the same as the rest of us. And it should not be forgotten that individuals laboring in the hope of reward are, in the last analysis, the spark-plugs that keep the machine running.

These are simple truths that we are dangerously close to forgetting. The most important step that has been taken in many moons toward insuring continued progress in this country, is the widespread movement to limit by Constitutional amendment the peacetime taxing powers of the Federal government.

### Tribute Well Earned

Producers and retail distributors received a well deserved tribute from the President recently, when he said: "Despite the impact of war demands, domestic distributive channels have been kept open to a great degree. It has not been possible to keep all markets supplied with all the things we would like to have, but the essentials have been available in sufficient quantity to meet the needs of industry and the consumer."

"This has been due to the splendid job done by our means of distribution and the intelligent way in which producers have allocated their output."

### Quotes

"It is vital that more and not fewer business men should be in Washington to help shape policies. For if ever there is a time when sound business judgment is needed it is when the government is faced with decisions on the problems of conversion and reconversion of war plants.—David Lawrence."

"If all groups are willing to work together with imagination and courage along the whole front, I believe it is possible to set a new pace in raising the national income and likewise the living standards of our people."—Alfred P. Sloan, Jr., president of General Motors.

"Industry could not have existed in this country if seven of every ten people didn't know, for example, that a Chevrolet is something you ride in or that Canada Dry is something you drink."

"Yet seven out of ten don't know that free enterprise is the thing that made both possible and the thing that gives them their jobs, their homes, and their security."—Frank E. Tripp, American Newspaper Publishers Association.

"When a people yield to a great centralized government to think and plan and care for them from cradle to the grave, it is not far to the grave for everything which free men hold dear."—Rep. Hatton Sumners (Dem., Texas).

### Dry Beans

Gardeners who have snap beans maturing on the vines may wish to let the pods ripen and dry, to furnish some dry beans for winter use. After frost the plants are pulled and dried, the beans are threshed out, and stored in a dry place. For control of weevils they should be treated with carbon disulfide or other fumigant, available from most drug stores or seed stores.

### Mica Essential

Of the materials used in electrical equipment, one of the most essential is mica, long supplied mainly by India.

### Stroke in Time

"When attended to at the first sign of need, paint jobs can be accomplished at comparatively little expense," says the Federal Housing administration. "When neglected, repairs can run into considerable sums. It is the duty of every American home owner to maintain his property in good sound condition during these days of emergency. It is a duty which he owes to himself as well as to the whole national structure of the country."

### May Burst Open

Early cabbage will stand for some time, but particularly in times of heavy rain, the heads are apt to burst open.

### Quartz for Radio

The chief war need for Brazilian quartz is for radio oscillators. Pieces the size of small wafers are used in transmitters and receivers to control frequency transmission. Due to "piezo-electrical" property of the quartz, the oscillator vibrates only to its assigned frequency. The quartz makes it possible to achieve precision tuning.

Since 1934, the farm real estate taxes reached their low point in the depression, yearly changes have been less than 3 per cent. At the end of the period, 1934-1943, average taxes per acre were virtually the same as at the beginning.

### Planless Planners

#### OPA IS PRACTICAL!

One of OPA's fuel-oil rationing experts received an application from a Maryland farmer who requested more fuel for his Diesel tractor. The "expert" wrote back suggesting that the farmer convert to coal!

#### DIAPERS FOR DERBIES

When an investigating congressman revealed that the Lend-Lease Administration in Washington had shipped 100,000 completed diapers and material for 800,000 additional diapers to the natives of North Africa, thousands of folks had a good laugh; for it was disclosed that the Arabs, not knowing what to do with the diapers, are wrapping them around their heads. Yes, it was funny—to everyone except new parents in this country who have been wondering why there was a shortage of diapers, although apparently the knitting mills were manufacturing plenty of diaper-cloth. Wonder what those Lend-Lease boys will ship overseas next in the name of war?

The New Deal alibi for Republican victories at the polls the last two years is that "President Roosevelt was not running." Which, in addition to giving most political prognosticators a laugh, is an admission that the New Deal has become a one man party.

One thing we've done to maintain good telephone service—all up and down our territory—and still meet war needs is to bring back from storage many of the old-style upright telephones. They are just as reliable, just as serviceable as the newer hand sets.

Our whole program has been one of redesign and research and reuse, to save war-vital materials. This work began before Pearl Harbor and has been stepped up progressively ever since. We've saved many thousands of pounds of copper and other materials. We've been able to salvage vast amounts of critical metals and still keep telephone service at a high standard.

And we intend to stay on top of that job, doing our best to give everyone all the service there is. . . . Fast service! Efficient service! Service with a smile!

Rev. DeVries has chosen the topic, "Our Faith in This World" for his sermon at the worship service of the Community church next Sunday at 11 o'clock. The young people will discuss "The Subconscious Self and Personality" at their evening meeting at 7:30 o'clock.

Donna Marie, small daughter of Mr. and Mrs. Russell Nickerson, was baptized last Sunday morning at the worship service of the Community church, and EM 1-c Lawrence Hansen and wife were her godparents. EM 1/c Hansen is enjoying a leave from his work in Rhode Island, and he and his family of Grayslake were guests of the Nickersons for the day.

Mrs. Ned Grimes visited her daughter in Chicago for several days last week.

Mr. and Mrs. Clarence Summers of Chicago and their son, Gregory Summers of the Navy who is home on furlough after service in Alaska and the Pacific, and Miss Marjorie Mason, also of Chicago, were guests of their aunt, Mrs. Stella Pedersen last Sunday.

Rev. and Mrs. DeVries entertained relatives, Mr. and Mrs. Harry Mahoney and daughter, Mrs. Reid of Oak Park at the parsonage last Sunday afternoon.

Mr. and Mrs. Clare Sherwood have returned from Florida after spending several weeks there.

Mrs. Jack Wallace was hostess for her Pinochle club at pot luck luncheon at her home west of town last week Tuesday and the club will meet next Tuesday with Mrs. Charles Britton in the village.

Mr. and Mrs. Louis Biondi of Petite Lake Park started Saturday for California to spend a few weeks with their daughters in San Francisco and Los Angeles.

Mr. and Mrs. Lester Hamlin, accompanied by Mrs. Hamlin's sister and husband of Chicago, attended the Sonja Henie Ice Carnival in Chicago last Thursday evening.

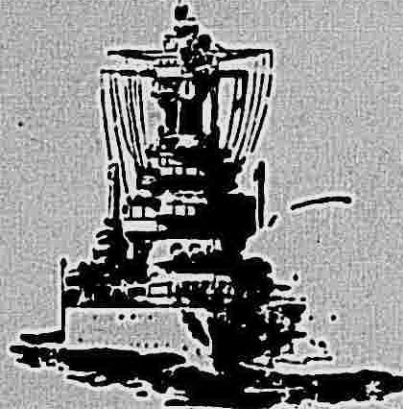

Mr. and Mrs. Frank Wood arrived home a week ago from Florida where they visited friends for two weeks. On New Year's Day they were guests of Mr. and Mrs. Henry Reichman, formerly of Antioch.

The local fire department was called out last Thursday to assist the Gurnee fire department in a fire near the Mill Creek Hunt club east of Millburn, and on Monday to the Carl Hughes place east of the village when

# What You Buy With WAR BONDS

Lassie Wagons

When Japan attacked at Pearl Harbor we had 17 battleships in service and 15 building. We were making preparations but the war did not wait. These 32 battle wagons cost American taxpayers three billion dollars for a two ocean navy. The war seemed far away then.

Now fifty million Americans have a personal stake in this war. It has been brought home to them. That's why everyone is increasing purchases of War Bonds.

U. S. Treasury Department

their milkhouse caught fire, but no further damage resulted.

Mr. and Mrs. Frank Richards were Libertyville callers on Tuesday.

The truck will call at the Village hall Monday for scrap paper collected by W. S. C. S. in connection with the paper drive and will collect from schools the same day.

Joe Koelstra, who has been a patient at the Mayo hospital at Rochester, Minn., for more than two weeks, was able to come home Sunday and is improving. His daughter, Mrs. Tessie Brownlee, was with him during his stay there.

Pvt. Ervin Barnstable, Jr., who is an army paratrooper stationed at Camp Polk, La., came Monday for a fifteen day furlough at his home here. This is his first visit home since his induction last June.

The W. S. C. S. sent a consignment of used clothes to the Goodwill Industries in Chicago on Tuesday.

## LAKE VILLA SCHOOL NEWS

The report cards came out on Tuesday night.

The paper drive at the school is going well and we have collected a

very large amount. Irving Barnstable, Kenneth Barnstable's brother, is home on furlough from Camp Polk, Louisiana.

The seventh and eighth grades are beating the fifth and sixth grades in spelling.

Bobby and Billy Wilton visited school last Friday.

David Thompson is the new boy in second grade.

Leona Hoselton, who is in fourth grade, and Jack Armstrong, who is in third grade, are leading as Chief Petty Officers in spelling.

## Bambi

Author—Felix Salten

As soon as he is born, young Bambi learns the way of the forest. His mother teaches him how to stand on his wobbly legs and soon he talks with the cricket and butterfly.

He basks in the kindly sun and life is glorious. Soon Bambi grows older and discovers that life can be dangerous as well as beautiful. He experiences his first winter. He is hunted and becomes aware of death. But soon spring comes and he again meets the beautiful doe, Faline, who becomes his wife.

## Book Report

Title—Lassie Come Home

Author—Eric Knight

This book was about a beautiful collie named Lassie. She was owned by Joe Carracough. There were a lot of people who wanted that kind of a dog, especially a certain man named the Duke of Rudlingham. He had a lot of money and was trying to get all the expensive dogs he could cheap, then make some money on them. The Carracough family was not very rich and at that time Joe's father didn't have any work, and they needed money to live on so the Duke of Rudlingham bought Lassie. Lassie didn't like the Duke nor his kennels. Lassie kept running home from the kennels, then the Duke would have to come after her. Joe didn't like to see her go because he thought so much of her. The Duke was getting mad because Lassie kept running away. He took her to his home in Scotland. Lassie didn't like it there either, so she started on her way home even though it was some 1000

## Tantalum Source

Brazil has replaced the Belgian Congo as the chief source of tantalum. This is a heavy mineral, usually occurring in black ore and having a specific gravity of 7 to 7½.

## India Produces Most Burlap

The first power-driven mill for spinning jute yarns in India was set up in 1855 at Rishra, 12 miles above Calcutta on the Hooghly river, and soon produced eight tons a day. Four years later the first power-loom mill for making burlap was established at Barnagore. It had 192 looms. Not until 35 years ago did the mills of India spin more jute than India exported. They normally produce 90 per cent of the world's burlap, and use more than a million tons of jute a year.

## Teacher Shortage

A survey made in the fall of 1942 revealed that more than 2,000 schools, mostly in rural areas, failed to open that fall. There was a shortage of at least 75,000 teachers in the nation at large, and it was estimated that 2,000,000 children were receiving an education below the standards considered acceptable a year before.

## "RATIONING OUTLOOK FOR 1944" IS LESSON TOPIC FOR UNIT

The probable rationing conditions for 1944 with regard to clothes, food and other commodities were discussed by Mrs. Lorin Volk during the lesson period at a meeting of Lake Region Home Bureau unit Wednesday evening in the residence of Mrs. Homer La Plant, South Main street.

Mrs. Homer White was appointed delegate from the unit to the farm and Home Week at the University of Illinois, Urbana, Ill., Feb. 8, 9 and 10. Some of the newer discoveries in the field of medicine, and the importance of simple home remedies were discussed by Mrs. Walter Hall.

Guests at the meeting were Meses. William E. Nelson, Dudley Kennedy, Knute Lassen, George Luerssen and Lawrence Thayer. Members present included Meses. Hall, Cain, LaPlant, White, Donald Wertz, Robert Runyard, Roy Creighton.

After the meeting cards were enjoyed and refreshments served. High scores went to Meses. Eva Burnette, A. H. Kaufman and Sadie Keeney.

The next meeting will be held in the home of Mrs. Lester Heath, Friday evening, Jan. 28.

## GRADE PTA TO HOLD CARD PARTY MONDAY

Mrs. Maurice Radtke and Mrs. Lester Osmond, Sr., will be the hostesses for a card party to be held by the Grade School Parent Teacher association Monday evening, Jan. 24. An admission charge of 35 cents will be made for the affair, at which bride, five hundred and pinocle will be played.

## EARLE GIBBS GRANTED LEAVE OF ABSENCE

Mr. and Mrs. Earle Gibbs and Mrs. Robert Gibbs left for Miami, Fla., Sunday. Mr. Gibbs is on leave of absence from the Antioch A and P store, where he has served as manager for many years. During that period he has made many friends, who have expressed the hope that he will return from his vacation in the best of health.

Mrs. Sine Laursen is visiting this week at the home of Mrs. Effie Nelson.

A party will be held by the members of the Old Time Dancing club Saturday evening in St. Ignatius' hall. St. Mary's guild of St. Ignatius' church met at the home of Mrs. Laurel R. Van Patten on Ida avenue Wednesday afternoon.

Plans of the Antioch Rebekahs for the coming year were outlined by the new noble grand, Mrs. Clara Horton, at a meeting Wednesday evening.

## Dairy Payments to Be Continued Thru Jan.

Payments under the dairy subsidy will be continued through January, according to word received by C. A. Faulkner, county AAA chairman, from the War Food Administration. Rates for Illinois will be 35 cents a hundred weight on whole milk and five cents a pound on butterfat.

Payments are now being paid for October, November and December, 1943, if not previously made. Farmers unable to go to the county AAA office may handle the transaction by mailing in their applications and sales evidence.

## Chicken House at State Line and Hwy. 41 Burns

An oil burning heater unit was believed to be the cause of a fire which destroyed a chicken house and about 20 chickens on the Custer farm, Highway 41 and Wisconsin state line, to which the Antioch fire department was called Friday morning at 11:05 a. m. The property is owned by John Noll, Waukegan.

The bridegroom is the son of Mr. and Mrs. Chris DeYoung of Wadsworth. The bride's mother, Mrs. Ethel Saunders of Syracuse, was also there for the ceremony.

The Rev. L. H. Messersmith read the service. Miss Margaret Denman and Frank De Young attended the couple as bridesmaid and best man.

Mrs. James Spiegel assisted as hostess for the reception and supper held immediately after the service.

Out-of-town guests, included Mr. and Mrs. Earl Whidden, Mrs. Joseph Cline and Mrs. Giles Kingsley of Downer's Grove, Mr. and Mrs. A. G. Taylor and daughter, Ruth, of Waukegan.

Sgt. DeYoung left this week to resume his duties with the army air corps at Augusta, Ga. His bride is returning to her New York home temporarily. Sgt. De Young has been in the service since August, 1941.

## Personals

### INFANT DAUGHTER OF STILLSONS CHRISTENED

Goldie Marie, "Dee" Stillson, 12-week-old daughter of Mr. and Mrs. M. M. Stillson, was christened at St. Ignatius' Episcopal church Tuesday evening, with the Rev. A. D. McKay, officiating, Mrs. J. E. Brook, Mrs. W. C. Petty and T. R. Birkhead acted as sponsors.

For her christening Baby "Dee" wore a dress of fine batiste, trimmed with drawn work, which her mother had worn when she was christened; a tiny gold cross that was the gift of faculty members at Antioch Township High school, and hand-made white shawl wrap and slippers.

The baby's grandmother, Mrs. R. F. Benser of Volin, S. Dak., who has been visiting here for the past few weeks, was among the out-of-town visitors present.

A reception was held afterward at the Stillson home, where the tea-table centerpiece featured pink candles, and two cakes decorated in pink, blue and green. One of the cakes was baked by "Dee's" older brother, Melfred, and the other by the baby's mother.

## Boosters to Seek Revenge Against Ingleside Recs.

The Antioch Boosters, who were licked by the Ingleside Recreation team in their last match, held here, will be out for revenge next Sunday night at 8 o'clock, when they will bowl against the Inglesides on the latter team's home alleys.

Sunday afternoon, a live match took place between the Antioch Recreation team and the Johnson Sea Horse club, with the Sea Horses rolling up a tidy 2901 for their total, to snatch the honors from the Rec's, with a mere 2716 total.

Ogrin was high man for the visitors, with 678 to his credit, as against Walters' 574 for the locals.

Plans for the Men's no-handicap sweepster to be rolled on Feb. 5 and 6 are now complete and although the tariff for the tourney is set at \$5.00 the entry is expected to be large. The event is limited to bowlers who are carrying averages up to 186 and will consist of six games across six alleys. Prizes will be figured on the usual percentage basis.

No date has been set for the Men's Handicap sweepster but Manager Lou Bauer of the local maple lanes expects to have the event lined up during the next week and will be ready to accept entries.

Men and Women bowlers will compete together for the first time this year when the Mixed league bowlers will fire the first strike ball into the pins this Sunday evening at 7:30. The league, which is limited to about 20 bowlers, is a new departure from the standard league in that kегlers who do not "show up" will not be required to pay. Prize money will be paid weekly. There are still openings for a few bowlers, according to Ken Ashe, who is in charge of organizing the new league.

**Ladies' Major League, Jan. 11**  
Recreation won two games from Snowwhite last Tuesday evening. D. Ferris rolled 451 for the winners, and L. Simonsen bowled 451 and E. Hays 498 for Snowwhite.

The Roundup took two games from the Cafe, and Bud's won 2 from Bluhm's.

### Ladies' Handicap, Jan. 12

D. Ferris rolled 430 for Pickard's, and L. Johnson 483, L. Keulman 465 and R. Klaus 461 for Slide Inn, when the chinamakers took two games from the Slide Inns.

Anderson's won two from Johnson's, with E. Dunworth high for the winners, scoring 441.

## Lake-Cook Supply Co. Announces Date of 16th Annual Meeting

The Board of Directors of the Lake-Cook Farm Supply Company announces the Sixteenth Annual meeting of the stockholders to be held at the Rand Park Field House in Des Plaines, on Saturday, Jan. 22, 1944. Due to the many business details to be taken care of that day, all of those interested are urged to be there promptly at 10 a. m. when the meeting is called to order by Eb. Harris of Grayslake, President of the company.

This meeting will be of vital interest to all the farmers of Lake and Cook counties. Approximately 4000 of those farmers are common stockholders and 400 are preferred stockholders. It will be of unusual interest to everyone, as the largest dividend in the sixteen years' history of the company, \$85,000, will be given out that day. Besides this big dividend payment, interesting reports covering the nearly million-dollar volume which was done last year, as well as plans for the large expansion which is taking place, will be discussed.

The Entertainment committee has been unusually fortunate in being able to obtain George Metzger, Field Secretary of the Illinois Agricultural association as the main speaker of the day. An unusually fine program of musical entertainment will be presented by the Harmony Trio of Woodstock, Ill. These famous musicians are well known in this district and their coming will be of much interest.

The famous "Lake-Cook Lunch," which has become a standard of "Free Lunches" in the territory, will again be served by the Lake-Cook employees.

Everyone is urged to attend, and everything is free.

**Rifle Experts**  
During the 31 national rifle matches held since 1903, U. S. marine corps rifle teams have captured 15 championships.

Gifts of money for Army equipment from patriotic groups in Illinois, Michigan, and Wisconsin, have totaled \$72,118.04 during 1943, according to Major General H. S. Auerand, commanding general of the Sixth Service Command, which comprises these three states, with headquarters in the Civic Opera building, Chicago, 6, Ill.

By Congressional authorization, General Auerand and his officers throughout the Command may accept, on behalf of the United States, gifts of money made on condition that they are to be used for a particular war purpose.

Ambulances were the most popular of the items purchased, funds being earmarked for 41 of these vehicles. Also purchased were nine jeeps and one weapon carrier.

Mrs. Fred Sterbenz, Loon Lake, was a visitor at the Antioch News office Wednesday afternoon. Mrs. Sterbenz, who had just stopped at the post office to buy a bond for a grandson, George Paul Sterbenz, brought in a letter she had just received from a son, Pfc. Paul Sterbenz of the U. S. Marine corps. Two other sons are in the service, Corp. Rudy, in Italy, and Pvt. George E., in New Guinea, both with the U. S. army.

Paul writes that he has been through one of the major engagements in which the marines took part recently in the Pacific area, but is feeling fine.

"After sleeping in mud and rain for so long, I really enjoyed my bunk last night," he observes.

"Have seen and learned a lot," he continues, and adds a Christmas note—"Yesterday and today we have been receiving packages. I've got 16... things that came in very handy, as I lost most of my gear."

He also says, "Well, so far, we've been bombed, shelled, strafed and shot at, and we're still here. . . . That is, we're still okay."

Letters from Lt. George Berry West, pilot of the plane on which their son, T/S (now Staff Sgt.) Charles L. Anderson is a crew member overseas, and from Lt. West's wife, of Carthage, Tex., have been received by Mr. and Mrs. Burt Anderson. In both letters the Antioch lad is given high praise for his work, and mention is made of his promotion.

T/S Richard T. Sheahan, who has been in Arizona, arrived home Monday on a 15-day furlough to visit his parents, Mr. and Mrs. Dan Sheahan of Bristol, and other relatives, including his brothers, Joe and Dan of the Sheahan Implement company in Antioch. Dick will have been in the service a year this February.

Bluejacket William Fred Chase, 18, son of Mr. and Mrs. Paul Chase of Antioch, received recognition as a "qualified striker" for the petty officer rate of Aviation Machinist's Mate, third class in recent graduation exercises held for students at the Naval Training School for aviation at the Naval Air Technical Training Center, Navy Pier, Chicago, Ill.

The "Striker" was sent to the specialty school on the basis of his recruit training test scores which indicated his aeronautical ability.

Navy Pier's school offers instruction for both aviation machinist's mates and aviation metalmiths. Airplane motors, wiring and assembly comprise the machinist's course; metalmiths learn the maintenance and repair of the airplane structure. Both groups received instruction in the principles of flight.

The newly graduated man is now awaiting active duty orders to sea or to some shore station.

Among the men who were inducted into the army by Lake County Board No. 3 at North Chicago this past week are:

Erwin Brezina, Ingleside; Marlin Frederic Wirth, William Harold Dziel, Gurnee; Eugene August Shea, Wadsworth.

Those entering the navy included: Donald Ralph Dowling, Grayslake; Emil Louis Lano, Donald Arthur Irish, Gurnee; William Grant Sisson, Robert Harold Carder, Zion.

"Well, I went over to see Dan Boyer today," Pvt. Theodore W. Schmitz reveals, via postcard from Miami, Fla. "This is a picture of the hotel (Hotel Rowe) he stayed in. Just got back." Ted also saw Wayne Drom, who is stationed in Florida with the army air corps.

John Henry Messing, Jr., and Earl Dean Talley are the latest Antioch youths to qualify for Army Aviation Cadet training with the air forces, according to information received from the examining board at 186 West Van Buren street, Chicago. Both are students at Antioch Township High school.

We apologize. We can't get help. We can't get addressograph plates—we can't even get drunk and forget it all, due to the liquor shortage in these parts.

The one thing we have got is a national shortage of fats and oils, but with your continued assistance and understanding we'll replace the deficit with salvaged kitchen fat.

reside in Waukegan, but he has been making his home in Antioch while attending school here. Both young men are members of the Air Corps Enlisted Reserve, but will not be called into service until after they have passed their eighteenth birthdays.

Re-printed from the La Salle County Ledger, which in turn re-printed it from the Oregonian Sunday magazine, is the following Kipling-esque poem by Corp. Ralph E. Torgerson, an Oregon man—

Somewhere in New Guinea, where the sun is like a curse  
And each long day is followed by another slightly worse;  
Where the brick-red dust blows thicker than the shifting desert sand,  
And a white man dreams and wishes for a greener, fairer land.

Somewhere in New Guinea, where a woman's never seen,  
Where the sky is never cloudy, and the grass is never green,  
Where the dingo's nightly howling robs a man of blessed sleep,  
When he crawls into his pup tent for a haven of retreat.

Somewhere in New Guinea, where the nights are made for love,  
Where the moon is like a searchlight, and the Southern Cross above  
Sparkles like a diamond necklace in a balmy tropic night,  
It's a shameless waste of beauty, when there's not a girl in sight.

Somewhere in New Guinea, where the mail is always late,  
Where a Christmas card in April is considered up-to-date,  
Where we never have a payday, and we never miss the money, 'cause we'd never get it spent.

Somewhere in New Guinea, where the ants and lizards play  
And a hundred fresh mosquitoes replace every one you slay—  
So take me back to Oregon, for that is now my yell,  
For this Godforsaken outpost is a substitute for hell.

A/C Robert H. Pedersen, 20, son of Mr. and Mrs. Alfred J. Pedersen, Route 2, Antioch, has reported to the Altus Army Air field, Okla., for the final nine-week phase of his pilot training. From Altus he will either go on to train with the multi-engine bombers or fighters that he will ultimately fly in combat zones, or he will be sent to Central Instructor's school at Randolph Field, Tex., to learn how to instruct other young men training for their silver wings.

"Will you please change my address again?" asks 1st Lt. Elizabeth Corrin, now at Ft. Washington, Md. "I shall be here for seven weeks attending the Adjutant General's school. Then I'll be back to my home station, Buckley Field, Colo. It certainly means a lot to receive the News each week and keep up with all the events in Antioch. Many thanks to the News and the American Legion for sending the paper."

## Set Aside 2,000 Acres in Iroquois County as Game, Fish Preserve

Following a study of reports and recommendations, Governor Dwight H. Green has just approved the State's purchase of two thousand acres in northeastern Iroquois county as a public game and fish preserve. The last regular session of the Illinois General Assembly appropriated \$150,000 for the purchase of such lands. The Iroquois county tract contains natural cover for pheasant, quail and squirrel.

Governor Green has also approved the purchase of 133 additional acres along the Illinois river in Marshall county as an enlargement of the Sparland public shooting grounds, other tracts will be purchased later.

## Hemp Growers Meet at Union Grove Rural Normal

Hemp growers for the Union Grove, Wis., hemp mill held a meeting in the Racine-Kenosha Rural Normal school Friday afternoon. A number of farmers in this region became interested in the growing of hemp during the past year. The fiber is used to fill needs formerly met by imports.

Accident Toll Low  
During 1942, military aviation accounted for only one fatal accident for every 1,750,000 miles flown.

Antioch Cagers  
Nip Grant, 36-29

Antioch nipped Grant 36-29 to hold second place in the Northwest conference. Ellis was top scorer for the Sequoits with 12 points, followed by Wilhelm's 10 points.

The "lights" captured their fifth conference win to tie Palatine for first place in the Northwest conference, and trounced Grant for a 22-7 victory. High point man was Nader, hitting the hoop for 10 points.

The Sequoits play Ela at Antioch Friday, Jan. 21.

## Grade School News

THIRD GRADE  
Four boys joined the Cub Scouts: Bruce and Fred Stahmer, Jim Osmond and David Petty.

Our class is having tap dancing under the guidance of Mrs. Knapp. We have completed our library. It is finished in red and white. The third grade has a new student, Don Masopust from Melrose Park, Ill. We have made Indian pottery for social studies.

Marlene Wertz is a second Sonja Henie, she has her own pond to skate on. The third grade celebrated Carol Loftus' birthday last week. She brought candy for all. Jack Nelson has a birthday this week.

FOURTH AND FIFTH GRADES  
Last week our Friday morning program was arranged by the following committee: George Nelson, Shirley Testdorf, Kenneth Rentner, and Betsy Messing.

The program:  
Rose Ann McGreal, Joanne Osmond, Patsy Weber and Charlene Nelson sang "With My Head in the Clouds."

Barney Cosgrove and Eddie Bluhm sang the Army Air Corps song. Sue Scott played "Put Your Arms Around Me Honey" on her horn.

We invited the third grade in to see it and after the program we all sang "You're a Grand Old Flag."

We are making spatter painting for our room.

SEVENTH GRADE  
The pupils of the seventh grade are making pictures of winter scenery for their border.

The best ones are to be chosen from the others, and are to be put up on the bulletin board in their room.

The pupils of the seventh grade are writing themes which are chosen by four other children of this room. Every Monday these are written, corrected and copied over in ink.

There has been a chart made for this purpose.

So far the winners are 1st prize, Jim Phillips, June Hunter; second, Elsie Farnsworth, Norma Jarnigo; third, Jane Hunter and Ronald Gaa.

PAPER DRIVE  
Again the grade school boys are out of scrap paper. Because of the good weather, the boys started early. They started Tuesday instead of Thursday. And will continue until they have all the waste paper gathered.

The paper will be stacked at Mapthorpe's Service station next to the mill.

If anyone has waste paper and would like to contribute it to the Grade School Paper Drive you can leave it at Mapthorpe's Service station. Again as in the October drive the Village has furnished the truck for picking up the paper.

## EIGHTH GRADE

With the boys busy with the paper drive the eighth grade girls are re-organizing their library. Our librarian is Margaret Anderson, her assistant, Patsy Anderson. We hope to get it fixed so that we will know just what books we have.

We are now reading poems from different authors, trying to decide which author's writing we like the best.

The eighth grade is studying about the Government and the constitution. We are making maps of Europe.

We are putting in the capitals, cities, and crop regions.

Patsy Anderson and Virginia Lee Ostrander were business callers in Waukegan on Thursday.

Our team arrived there at 6:30. The game started at 7 o'clock.

Tax-Payers Urged to  
File Income Tax Early

The preparation and filing of income tax returns as early as possible is being urged by Carter H. Harrison, collector of internal revenue.

He adds, "Many persons will owe a substantial tax and should start immediately to find out how much they will owe and to make plans for meeting the obligation. Also, although many tax payers will find that they are substantially paid up on their 1943 taxes, some in fact being entitled to refunds, it is still absolutely necessary for them to file a return."

Harrison explains that under the pay-as-you-go system all current payments through withholding from wages or by means of payments on "declarations of estimated tax" are only approximate. Therefore, it is necessary to file a return at the end of the year to determine the exact amount. Taxpayers entitled to refunds will secure them merely by filing their return.

An individual filing a return will have in his possession a Form W-2 which will be furnished to him by his employer. This form gives the total amount of salary payments made to him, and the deductions for victory and withholding taxes. He will also have a copy of Form 1125, which will be forwarded with the income tax return. This gives the amount of tax led with the 1943 return and also the payments made by the taxpayer.

Taxpayers needing help may receive it at the office of the collector of internal revenue, U. S. courthouse, Adams and Dearborn streets, Chicago, or at any of the division offices, including that at 214 West Washington street, Waukegan.

Deputy collectors will be stationed in smaller offices in other towns of the district at various times prior to March 15. These dates will be announced later.

Returns must be made by every individual who, during the taxable year 1943 was single and had \$500 or more income; was married and had more than \$624 income; was married and, together with wife or husband, had \$1,200 or more income.

In addition, a return must be filed by everyone who paid or owed a tax on 1942 income; by anyone claiming

a refund of taxes withheld from wages.

The requirements for filing 1943 returns on or before March 15 apply to civilians and personnel of the armed forces alike, except that postponements or extensions are allowed those on sea duty or outside the continental United States. If a member of the armed forces is on sea duty or outside of the continental United States, his wife may also postpone her return if her own income is less than \$1,200.

## DRAFT:

## Tighten Deferments

In an effort to ease the dad's draft, Selective Service officials called a halt to the granting of occupational deferments to youths between 18 and 21, except those engaged in agriculture.

As a result of the order, at least 115,000 non-fathers are expected to become eligible for induction, although 11,000 dads between 18 and 21 will fall under the new regulation.

High school students are to be allowed to complete their education, but college deferments will be suspended except for critical courses like medicine, dentistry or veterinary, and the number of youths permitted to major in scientific fields after graduation will be restricted to 10,000.

Although 446,000 fathers were expected to be called by January 1, only 90,000 actually were inducted.

## RUSSIA:

## Polish Boundaries

Declaring that it does not consider prewar Poland's 1939 borders unchangeable, Russia proposed the creation of new frontiers along lines suggested by Great Britain in 1919, which would place White Russia and the western Ukraine in the Soviet union.

Brought to the fore by the Red armies' advance into the disputed territory of prewar Poland, the boundary question has found the Poles' government-in-exile in London insisting on restoration of the prewar frontiers. In its latest proposal, Russia suggested that the Poles annex other territory inhabited by its people, like East Prussia, to lay the foundation for a postwar state.

## Reds Surge On

As argument over the Polish eastern boundary went on, Russian forces surged forward in eastern prewar Poland and gradually hammered down the German front in the great Dnieper bend.

With one eye peeled on Allied movements in western Europe where invasion preparations were underway, the German high command fought a defensive war, refusing to throw in its mobile reserves into a large scale action in the east.

Instead, the German policy appeared to be maximum resistance to the Russian steamroller until superior forces necessitated a withdrawal, and repeated troop movements along the wide front to prevent a complete Russian breakthrough to their rear, where encirclement might trap their entire forces.

## EUROPE:

## Pound Balkan

As the invasion hour drew near, huge Allied forces were being massed in Britain, with the Germans saying reconnaissance showed that the attack might take the form of a pincer's movement against the continent.

As both sides girded for the showdown in the west, U. S. fliers struck hard at German supply and communication centers in the Balkans, particularly pounding the Bulgarian capital of Sofia, hub for railroads radiating to Rumania and Yugoslavia.

In Italy, U. S. troops continued their advance, beating through tangled German defenses with machine gun and mortar fire, after heavy artillery preparation.

## HIGHLIGHTS . . . in the week's news

**INCOMES:** A decline of 3 per cent in individual incomes was noted in November, compared with October, the commerce department reports. Nevertheless, November figures were 16 per cent, or 12 billion dollars, above the November, 1942, totals, which were about 10½ billion dollars. Total income for 1943 is estimated at 142 billion dollars, highest in history.

**BABY CARRIAGES:** All restrictions on the use of steel in manufacture of baby carriages, pushcarts, strollers and walkers have been removed by the WPB. Improvement in the steel supply is given as the explanation. An estimated 800,000 metal carriages will be produced during the year, if steel becomes available in sufficient quantity.

## LABOR DRAFT:

## Urged by FDR

To hasten the war's end, President Roosevelt urged enactment of a labor draft as part of a broad wartime legislative program, which also included:

1. A bill to tax all unreasonable individual and corporate profit;
2. Continuation of the present law to rewrite war contracts to remove excessive costs;
3. A law placing minimum prices on farm products and ceilings on consumer prices through subsidies;
4. Continuation of the price and wage fixing law, expiring June 30.

Of the labor draft, FDR said: "... I recommend . . . a national service act which for the duration of the war will prevent strikes, and, with certain appropriate exceptions, will make available for war production or for any other essential services every able-bodied adult in this nation."

## Freeze Security Tax

With the social security reserve fund for 1944 estimated at five times the amount of payments due in any of the next five years, the senate cast a 48 to 17 vote to keep the social security payroll tax at 1 per cent each for employee and employer.

Although Senator Barkley (Ky.) declared extension of the low rate now would only mean increase of the rate later on to meet cost of disbursements, Senator George (Ga.) said the present 1 per cent rate would "completely protect the solvency of the old age and survivors benefit fund."

Retention of the present rate would save employees and employers alike 1½ billion dollars a year over the proposed doubling of contributions, Senator Vandenberg (Mich.) said. The senate's action marked the third time it blocked a rise in the rate.

## SOLDIER VOTE

Gov. Ellis Arnall (seated) signs soldier vote bill.

First state to pass legislation on soldier voting, Georgia's bill calls for ballots to be sent servicemen overseas after they have registered through applications mailed to them by request of themselves or friends. Servicemen will return the registration applications and then the ballots by mail.

Designed to simplify balloting by the state's 250,000 servicemen, Georgia's soldiers' vote bill was passed after five days' debate, then speedily signed by 35-year-old Governor Ellis Arnall.

Second state to shape a soldiers' vote bill was West Virginia, which permits a serviceman's family to register for him, with ballots returnable up to election day.

## AGRICULTURE:

## Wheat Loans

Completion of loans on 127,277,698 bushels of wheat by the Commodity Credit Corporation during 1943 showed a sharp drop from the 386,297,684 total of 1942.

During 1943, farm stored wheat was estimated at 43,585,701 bushels, and that in warehouses at 83,641,907.

## Feed for Southwest

To help relieve feed conditions in storm areas of the Southwest where wheat pastures have been covered by snow, Commodity Credit corporation has made an emergency allocation of 20,000 tons of soybean meal. Southern cottonseed mills are processing this cake, with extra allotments being made from the government's share of a special crush of 13,000,000 bushels of soybean.

## Hog Embargo

A steady stream of trucks, sometimes forming a waiting line two blocks long, delivered 57,000 hogs to Chicago's sprawling stockyards on the opening day of last week's marketing, and when the first two hours of buying had filled packers' needs, there was a holdover of 77,000 pigs.

Many receipts were credited to loads received from other crowded markets, the farmers again were asked to curtail shipments as the War Food administration considered imposing an embargo on deliveries. As a result of the glut, Chicago yards paid an average of \$13.20, compared with \$14.60 last year.

## MODERN OPERA:

## Executes Son-in-Law

In action as melodramatic as any Italian operatic tragedy, Benito Mussolini's reorganized Republican Fascist government executed the Duce's former foreign minister and son-in-law, Count Galeazzo Ciano, to death for plotting to overthrow the old regime.

Also executed were four other members of the Fascist grand council, which voted to overthrow Mussolini during the early hours of July 25.

Count Ciano in palmier days.

25 after a full night of stormy debate. Thirteen others were sentenced to death in absentia, among them being Count Dino Grandi, who helped sell Fascism abroad in the 1920s.

Dark, dapper and ambitious, Ciano was known as the "personality diplomat," holding a position of influence in the Duce's government after his marriage to Mussolini's daughter, Edda, who bore him two children. At the end, neither the Duce nor Edda intervened in his behalf.

## SOUTHWEST PACIFIC:

## Tanks Lead Way

Pressed back by fighting U. S. marines on Cape Gloucester, New Britain, Jap troops gave ground only after vicious combat, in which both sides used artillery to batter at defense positions through heavy jungle foliage.

To the west, Australian units continued their march up the coast to join up with U. S. forces, which landed at Saider 60 miles to the north. Jap machine gun and mortar fire slowed the Aussie drive to a walk, but the enemy were scattered when tanks were brought up to lumber through the rugged defenses.

With part of the naval personnel getting a long-needed rest, the remainder were working double-time supplying Allied ground forces in the Southwest Pacific area, with many at their posts since last April.

## YOUNGEST MOTHER:

## 10 Years Old

Reputed to be the youngest mother ever to give birth to a child in the U. S., a 10-year-old Negro girl bore an 8 pound 8 ounce girl in Monahan, Texas, through natural delivery.

"The child never did know what was happening," said her physician, Dr. J. E. Cook. "She had been told she was going to have a baby, but she wanted to get right up and go out and play with the other children."

Even for a 10-year-old girl, the young mother is small, Dr. Cook said.

## CAN'T FIGHT

Members of congress are barred from the armed forces, the President ordered following a conference with the attorney-general. It was decided that the Constitution forbids a man from serving as a legislator and a soldier or sailor at the same time.

Apparently only two representatives would be affected: Henry Jackson of Washington state, now a private in a tank destroyer unit, and Albert Gore of Tennessee, stationed at Camp Shelby.

## TREVOR

This is what we've been working for all along. This is the year to hit and hurt the enemy. This is the time when everything you do counts double. If we all get together and do all we can, we'll be over this hurdle and well on our way to complete and crushing victory.

No question about the men in uniform—they'll go "all out." But can we count on you to back them all the way? Your quota is where you work—you've got to buy your War Bonds and then buy more, until every last loose

cent you have is fighting. Tough? Of course, it's tough—unless it is a sacrifice you're simply not doing your share!

Make the sacrifice now—buy more than the extra \$100 Bond your country counts on you for—winning the war is worth any sacrifice you make. Besides, you aren't giving, you're lending to America! You'll get back every dollar you invest in War Bonds, with interest.

An extra \$100 War Bond now is the minimum for everybody—can't we count on you for more?

This sticker in your window means you have bought 4th War Loan securities.

Let's All BACK THE ATTACK!

Sponsored by

PUBLIC SERVICE CO.  
OF NORTHERN ILLINOIS

## You'll be glad this neighbor asked you to Buy Bonds

This window sticker identifies you as the purchaser of extra War Bonds during the Fourth War Loan. It is a badge of honor to be displayed with pride. Be the first in your neighborhood to have one. Buy an extra War Bond today!

### Facts about the Fourth War Loan

The man responsible for the Fourth War Loan drive in your community has full information about the several types of War Bond investments available to you. Ask about all of them. One may suit your needs better than another. You may find that you have been missing something. And whether you are asked to buy extra Bonds or not, take this opportunity to help your community reach its quota in the Fourth War Loan. Buy... and buy to the limit!

#### You Get $\frac{1}{2}$ More Than You Invest

When held 10 years, Series E War Bonds yield 2.9% interest compounded semi-annually. Then you get back \$4 for every \$3 invested. Buy War Bonds from your Bank... Post Office... Mail Carrier... or Production Credit Association.

#### Series E War Savings Bonds

You LEND	Upon Maturity you get back:
Uncle Sam:	\$25.00
\$10.75	50.00
37.50	100.00
75.00	500.00
375.00	1000.00
750.00	

ONE day soon, a neighbor may stop by to talk about the Fourth War Loan and the share your locality is expected to play in it. Or, he may talk at a War Bond rally at the high school. Chances are he'll ask if you'll buy more Bonds. Will you look on it as a request for a donation? Or will you look on it as an opportunity to build up the financial reserve every business-like farmer or rancher has to have to run his place profitably?

No need to tell you it takes money to run a war. No need to tell you it's your war, your liberty at stake. But we're all human and just a little bit given to "letting George do it." Only this time we're all George. We've got to do it! And in buying those Bonds, we're doing ourselves as big a service as we are our fighting men and our country. We're building strength—personal financial strength—with which to meet the inevitable problems of tomorrow.

### Something Worth Buying

Maybe you have a son off at war. What a homecoming when he gets into his jeans and you've both got those Bonds to fall back on for the machinery and equipment and buildings you'll be needing in the future. And how about the education you've promised yourself you'd give

your children? And that long vacation in the sunshine you and your wife have so long deserved? The only way to have these things is to save the money now. U. S. War Bonds are the safest and most liquid investment you can make for these future needs—needs worth providing for!

## Fall Sowing

Many gardeners do not know that some of the easier grown and hardier annuals may be sown in the fall. Fall sowing is beneficial in two ways: (1) The sowing of these flowers now will leave more time for vegetable gardening next spring when the planting rush is on. (2) Such sowings of flowers will make earlier growth and give better bloom than spring sowings of these hardy annuals.

Every patriotic American will want to display this emblem at home—on his front door or in his window. It is the red, white and blue sticker that says you have done your part in the 4th War Loan.

**Display your colors now!**

**DURING** this 4th War Loan Drive you are again asked to do something extra to help smash the Axis. Your part is to invest in at least one extra hundred dollar Bond. But don't stop there if you can do more. For remember—no matter how many Bonds you buy—no matter what denominations they are—you get back on maturity \$4 for every \$3 you invest. And that's on the word of Uncle Sam, creator of the

safest investment the world has ever known. So before you look into your wallet—LOOK INTO YOUR HEART. Your company, the place where you work, has been given a quota to meet in this 4th War Loan Drive. Do your part to help meet this quota. And remember, millions of America's fighters are waiting for your answer, your pledge that you are backing them to the limit.
